Group 1: To evaluate the effectiveness, accessibility and quality of community mental health services

After reviewing the strategic plan for the LAC and the Workgroup 1 items, the group discussed inventorying the current mental health services. The group decided it would be much more efficient to inventory the services once the 211 was up-to-date.

Assignments:

Drenda will ask Alison with United Way:

- How the LAC and our workgroup can help get the 211 up-to-date.
- What is the timeline for completion
- What is the plan for keeping it up-to-date

Workgroup 1 feels that Michelle Marshal and Brandy from Journey Home would add value to our group.

Assignments:

Jill will ask Michelle and Brandy if they can join our group.

Once the 211 is updated and we have an inventory of services, the workgroup will:

- Identify bottlenecks in receiving services
- Identify barriers to receiving services
- Address barriers with mental health service providers
- Educate other providers on resources available
- Get more providers on Connect
